

SAP Specialist (m/f)

Location: Monheim, Germany

Our Vision is to be the number one supplier of API's and formulated products to the Pharmaceutical Industry.

Aesica is a leading supplier of contract research, development and manufacturing services for Formulated Products and Active Pharmaceutical Ingredients.

As a global contract manufacturer, we have operations spanning Europe, the USA and Asia. Aesica provides extensive opportunities to develop your career throughout the world and we create opportunities for employee development in an exciting, rewarding and fun environment.

We are a growing IT Department internationally based in line with the acquisition growth of our company. The position created is to be based onsite at Monheim.

Accountabilities

Initially the job entails gaining knowledge on transitional activities for SAP and ensuring the business is helped through the process. The role starts with SAP R/3 Version 4.7 and requires knowledge of interfaces to other systems onsite.

The role will also contribute input into contracts that are necessary for the sites. Reporting will be directly to the IT Director of Aesica.

Other Key Areas

- SAP R/3 version 4.7
- SAP knowledge in the following modules WM, SD, MM, FI and QM (MM most important)
- Knowledge of business processes and adherence to SAP modules is a key requirement
- SAP User Administration would be valuable for the future
- Managing and working with hosting partners
- Knowledge in GMP related areas and the ability to interpret GMP-guidelines in a pragmatic way would be an added benefit

Qualifications

We are looking for someone with:

- A university degree or equivalent qualification in an IT related discipline
- A minimum of 3 to 5 years IT experience, preferably in the pharmaceutical industry, ideally in the broad range of SAP
- Good business project management skills would be appreciated but not mandatory
- A pragmatic approach to handling onsite SAP topics and a high flexibility are a key to this role
- Knowledge in SAP R/3 application version 4.7
- Knowing SAP E.C.C 6.0 would be also favourable
- Good command of German and English, both verbal and written
- Willingness to travel between the sites from time to time

If you are looking to apply your knowledge in a challenging environment, then please apply by sending in a detailed CV and covering letter in English, including salary requirements by email to janina.stenzel@aesica-pharma.com.

For further information please contact Janina Stenzel (+49 2173/48 2146).
